

# Awakening the Dreamer, Changing the Dream Symposium

## Where On Earth Are We Going? What Can We Do About It?

Saturday . September 25, 2010 – 9:00 am to 1:00 pm

Come and share possibilities for new opportunities to make a real difference in accelerating the emergence of an environmentally sustainable, spiritually fulfilling, and socially just human presence on this planet. We will explore these questions together:

- Where Are We? – examines our environmental, social, and personal well-being
- How Did We Get Here? – traces the causes that led to our current imbalance
- What's Possible for the Future? – explores new ways of relating with each other and with the Earth; illustrates the broad global movement for change
- Where Do We Go from Here? – considers the role we want to play in the world and our personal and collective impact

The Symposium uses inspiring short films and video clips, information from some of the world's most respected scientists and thinkers, the insights and wisdom of indigenous peoples, and dynamic group interactions to allow participants to gain new insight into our worldview and create opportunities to shape and change the direction of our life on this planet.
